30th April 2012

Dear Tracey Lambert,

PROPOSED NEW SILAGE CLAMP AT SORRELSYKES FARM, WEST BURTON. DESIGN AND ACCESS STATEMENT.

Further to my clients full application which you have received I now provide this statement which is specific to the current application.

AIMS AND OBJECTIVES. My client requires new and improved silage storage facilities. The existing arrangement is poor and unsightly. The proposal is beneficial in terms of use and appearance.

SITE APPRAISAL. In recent times planning permission has been granted for a new parlour and dairy. The proposal is to provide a silage clamp in keeping with this approval and to be adjacent to the new parlour, and which is the case of the existing clamp which it will replace.

DESIGN PRINCIPLES. The structure proposed is the least that is required for current practice, and replaces a rudimentary structure. It is to be observed that farmers to remain in business must keep up with current practice albeit at a considerable investment. The specification is as the approved parlour and dairy which it will compliment and be a later construction.

USE AND AMOUNT. The use is to be an enclosed silage clamp. This may be considered unusual, in that many farmers have open clamps. It is beneficial that the stored silage is protected from the elements when a scarce resource. The existing clamp, which is to be replaced is an area of 268m² and is proposed to be 592m².

LAYOUT, SCALE AND APPEARANCE. The layout has been carefully considered and also the scale with regard to other proposed structures. The proposed specification creates an appearance compatible with such and also existing buildings.

LANDSCAPING AND ACCESS. All of the access arrangements are existing. It is not considered that further landscaping is a requirement.

Best Wishes

John B Hall
