To assist in answering the following questions refer to the guidance notes for further information on when there is a reasonable likelihood that any important biodiversity or geological conservation features may be present or nearby and whether they are likely to be affected by your proposals.

Having referred to the guidance notes, is there a reasonable likelihood of the following being affected adversely or conserved and enhanced within the application site, or on land adjacent to or near the application site?

a) Protected and priority species:

- Yes, on the development site
 Yes, on land adjacent to or near the proposed development
 No

b) Designated sites, important habitats or other biodiversity features:

- Yes, on the development site
 Yes, on land adjacent to or near the proposed development
 No

c) Features of geological conservation importance:

- Yes, on the development site
 Yes, on land adjacent to or near the proposed development
 No

14. Existing Use

Please describe the current use of the site:

PART OF GARDEN FOR EXISTING PROPERTY AT 19 STATION ROAD

Is the site currently vacant? Yes No

If Yes, please describe the last use of the site:

When did this use end (if known)?
DD/MM/YYYY

(date where known may be approximate)

Does the proposal involve any of the following?

If yes, you will need to submit an appropriate contamination assessment with your application.

Land which is known to be contaminated? Yes No

Land where contamination is suspected for all or part of the site? Yes No

A proposed use that would be particularly vulnerable to the presence of contamination? Yes No

15. Trees and Hedges

Are there trees or hedges on the proposed development site? Yes No

And/or: Are there trees or hedges on land adjacent to the proposed development site that could influence the development or might be important as part of the local landscape character? Yes No

If Yes to either or both of the above, you may need to provide a full Tree Survey, at the discretion of your local planning authority. If a Tree Survey is required, this and the accompanying plan should be submitted alongside your application. Your local planning authority should make clear on its website what the survey should contain, in accordance with the current 'BS5837: Trees in relation to design, demolition and construction - Recommendations'.

**Proposed new detached dwelling in the grounds
19 Station Road Grassington**

DESIGN STATEMENT

Site Analysis

The application site is a portion of the grounds 'garden' of Bridge House 19 Station Road Grassington.

19 Station Road is a detached house with a dental surgery constructed in more recent years.

The proposed dwelling is sited in the south west corner of the site. There is no vehicular access to the development site at the present time.

Design Principles

The main criterion for the proposal is to reflect the character and proportions of a dwelling to be in character with existing houses on Station Road.

Design Solutions

The design solutions is a result of site analysis and design principles.

The proposed house and garage has a floor area of one hundred and fifty two square metres and has been designed with set - backs and changes in floor levels to reflect the site boundaries and levels.

The roof will be in reconstituted stone slates 'natural weathered greys artstone' which closely reflects those of natural yorkshire stone slates.

The external walling will be in natural local random sandstone brought to courses with large quoin stones introduced at the corners.

Sawn gritstone lintels, sills, jambs and mullions will form window and door openings.

Windows and doors will be in natural timber finished with a dark stain. The windows will have 100mm external reveals.

Rainwater goods will be in black aluminium with gutters supported on gutter brackets. No timber will be used to form eaves.

It is considered that the materials chosen reflect those which would be expected in this locality of Grassington.

Access Statement

A new access will be formed onto Station Road which offers satisfactory sight lines.

The new drive and parking spaces will have a tarmac finish and appropriate drainage will be provided.

**Parking for two cars will be provided off the drive adjacent to the highway with garage and turning facilities at the new dwelling.
Level access will be provided to the porch and dwelling to facilitate wheelchair users.
Access will be satisfactory for the use of the emergency services.**
